

The Future of Learning – Video Competition 2016

Technical Requirements – For Video Production

- All videos MUST be submitted in MP4 format.
- The length of the video must NOT exceed 5 minutes.
- You can use any equipment that you have. For example, you can use...
 - A still camera to make a photo montage or stop-motion animation
 - An iPod, flip camera, or video camera to make a motion picture
 - Any combinations of video-making techniques
- When you are putting your media (movie clips, images, audio, etc) together, there are several types of editing software that you can use.
 - iMovie comes free on all Macs and is very easy to use.
 - If you have a PC, check to see if it has Windows Movie Maker, or download it free online.
 - You may also be able to get free trials of editing software – just search through your Web Browser.
